

## GUWI Data Release Consent Form

*This form must be completed by every company wishing to place their data in the Public Domain in conjunction with the Well Registration Service. Note, this service is only available to the Operator of the well, the Government Regulatory body, or the National Oil Company, should it be an Equity Partner or affiliated to the Government Regulatory body.*

*Please complete the form each time data is submitted.*

By execution of this Consent Form \_\_\_\_\_ (“Company”) agrees that the data provided by Company to IHS – Energy, its subsidiary and affiliated companies or its designee (“IHS”), and which data may include well attribute information such as operator name, depth, spud date, location, and status, may be used by an oil and gas industry standards organization, known as Energistics for access and use by the public. Company agrees that IHS may make such information and data available to Energistics and further that IHS will not be responsible for any use or dissemination of such data or information.
